

# BIRD AND EGG MEMORY MATCHUP GAME

Print these pages and cut out each bird or nest photo. Then mix up the cards and place them face down to play a game of memory. Players take turns flipping 2 cards over per turn. If the eggs and bird you flip over are a match, then you get to keep them! If not, flip the cards face down again and let the next player take a turn. Repeat until you have matched up all the birds with their eggs/nests. The player with the most matches wins!

# BIRD AND EGG MEMORY MATCHUP GAME

Alternative activity (with egg nests labeled) for younger players, they can keep the cards face up and try to match the birds and eggs that way.
