

The Life Cycle of a Frog

Print the wheels. Cut out the circles. Cut out the blank wedge on the Life Cycle circle top wheel on page 1. Color all the pictures. Use a hole punch, pencil or scissors to poke a hole in the center of the top circle and the full life cycle circle on page 2. Line up the holes of the circles and put a brad or round-head paper fastener (a bent paperclip will also work) in the center to hold the parts together. Now rotate the top circle to take a closer look at each life cycle part.
