

ORGANISM DATA SHEET

Draw and describe 3 organisms you found under, on top of, or around a log. An organism is a living thing. Some examples are amphibians, insects, fungi, and plants! Use the empty boxes to draw a picture of the organism next to its description.

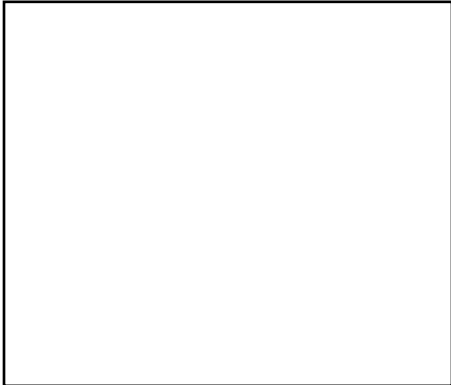

What you will need:

- Ruler
• Pencil
• Clipboard
• Organism Data Sheet

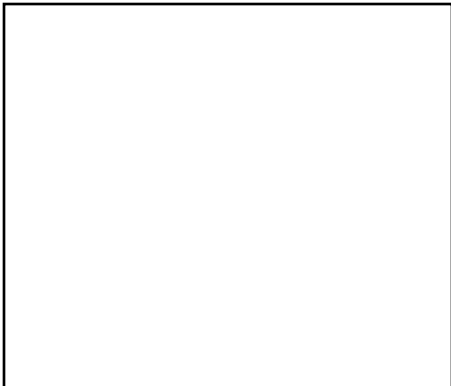

Items that might be helpful:

- Magnifying glass
• Amphibian or Insect Identification guide

Organism name
Where found
Organism Color
Number of legs
Organism length
Observations
